- 🔄 curvu

## EXPERIENCE

Intern

RedLight Software

📅 Jul 2023 – Sep 2023      📍 Coimbra

- Summer internship, that I learned about the design sprint and how to work with multiple technologies: React.TS, Sass, Ruby on Rails, Docker, Jira.

## PROJECTS

FlashQuest

by Friend Group

📅 During a semester

Mini-project to prototype Flash-cards to help hard courses like Medicine study with more fun. The prototype only has Frontend, React.js and configured with VITE. Eventough it was a project group the Frontend was coded 100% by me, since we lacked time to tutor others on learning this technologies.

- Website (click-me)
- Source (click-me)

Isoficiência Website

Isoficiência Construções, Lda

📅 On-going

I'm currently developing a straightforward website, only frontend, for a construction company. The site will serve as a platform to display their projects and attract both potential employees and clients looking to hire their services.

## ACHIEVEMENTS

- 🏆 ShiftAppens 2022 - Rookie Award certificate
- 🏆 TOPDEI Blitz 1st Edition - 2nd Place  
11 out of 12 problems in 1h30m

## SKILLS

React JS & TS Rails C & C++ & Java & Py

Git Docker Jira

## LANGUAGES

Portuguese English

## EDUCATION

Degree in Computer Engineering  
Departamento Engenharia Informática - UC  
📅 Oct 2021 – 2024
